CC

Cynthia's jewelry is made to be transformed by each woman (or man) who wears it, bringing one's own sense of movement and style to the piece they choose to wear.

CC was established in 2020, quickly gaining acknowledgment of the designer's unique ability to create modern jewelry that sets the stage for gemstones to come to life.

Originality and meticulous attention to detail are hallmarks of Cynthia's signature look. As each item is handmade, no two will ever be identical, even if they are similar in design.

Her jewelry is as hip as it is timeless, transcending age, and specifically made so it may be treasured for years to come. As the work is always executed by hand, local stonecutters, goldsmiths and metalworkers become a very important part of the process. Deeply embedded in each and every work is a sense of play, of energy, and of beauty. Blackened silver, gold, layering, gemstones and precious beads become defining words in these creations.

It takes time to appreciate the full details of CC's intricately designed pieces. 'Like layers of a secret, they reveal themselves slowly'.

Cynthia Djurovic

From a young age, Cynthia has been drawn to gems and jewelry, believing not only in their natural beauty, but also in the personal meaning and healing power within each piece.

Growing up in Lebanon, she was constantly surrounded by a rich multicultural environment, reflected in language, cuisine, and the arts. This inherently led her to finding love and

wonder in all forms of art, starting out in furniture design, and finally evolving into her dream career as a jewelry designer. ‘Pursue what keeps you up at night’ is a motto she strongly lives by.

Cynthia’s mission is to celebrate pieces that complement the strength and beauty of the women (and men) who wear them.

Gemstones have been used in the past to facilitate the flow of energy through the body. Even today, many people acknowledge their benefits. They are used in spiritual practices that promote a different type of healing. For example, some use certain gemstones to restore a balance of energy to the body, promote well-being, and the feeling of peace.

Circle of Life

This necklace symbolizes the circle of life, representing the never ending journey of discovery and rediscovery as we progress through life. It stands with the belief that our journey has no beginning and no end, and that life provides limitless opportunities to achieve our goals.

Better Together

Love is the answer, at least for most of the questions in my heart.

Why are we here? Where do we go? How come it's so hard? It's not always easy, and sometimes life can be deceiving. I'll tell you one thing, it's always better when we're together.
"Love is when everything is better together"
